

LEVEL 1 — First Steps Online

Purpose

Introduce very obvious phishing signs.

Player Goal

Learn that not every email is trustworthy.

Difficulty

Very Easy

Emails Included

- fake lottery wins
- spelling mistakes
- urgent “click now” emails
- suspicious attachments

Skills Learned

- check spelling
- avoid panic clicking
- recognise urgency

Example Email

URGENT: Your Account Has Been Locked

From: securebankverify123@gmail.com

Dear Customer,

Your account has been suspended immediately due to suspicious activity.

Click below now to verify your account or it will be permanently locked.

Verify Now

Clues

- Gmail sender address
- threatening language
- generic greeting
- poor formatting

End of Level Message

“Great work. You learned that urgent messages can be dangerous.”

LEVEL 2 — Everyday Internet Scams

Purpose

Teach realistic scams people commonly receive.

Difficulty

Easy

Scenarios

- parcel delivery scams
- shopping website scams
- supermarket reward scams

Skills Learned

- inspect sender domains
- identify fake delivery links
- notice unusual requests

Example Scenario

Fake parcel delivery fee request.

New Mechanic

Allow player to:

- hover over links
- inspect sender address

End of Level Message

“Cybercriminals often pretend to be delivery companies.”

LEVEL 3 — Banking & Money Safety

Purpose

Teach financial phishing attacks.

Difficulty

Medium

Scenarios

- fake bank login alerts
- PayPal verification scams
- tax refund scams
- pension scams

Skills Learned

- never enter passwords through email links
- identify fake banking websites
- recognise spoofed domains

New Mechanic

If player clicks:
show fake login page simulation.

This creates realism.

Example

“Your online banking access has been temporarily disabled.”

End Message

“Real banks never ask for passwords through email links.”

LEVEL 4 — Emotional Manipulation

Purpose

Teach psychological tactics.

Difficulty

Medium-Hard

Scenarios

- fake family emergencies
- charity scams
- romance scams
- fake tech support

Skills Learned

- recognise emotional pressure
- slow down before reacting
- verify information independently

New Feature

Emotion labels appear after answer:

- FEAR
- URGENCY
- TRUST
- CURIOSITY

Example

“Grandma, I lost my phone. Send money urgently.”

End Message

“Scammers use emotions to stop people thinking carefully.”

LEVEL 5 — Advanced Phishing

Purpose

Teach highly realistic modern phishing.

Difficulty

Hard

Scenarios

- cloned company emails
- realistic fake websites
- AI-generated phishing emails
- copied branding/logos

Skills Learned

- inspect tiny differences
- verify domains carefully
- analyse professional-looking scams

New Feature

Some emails are actually safe.

This prevents players from assuming:

“everything is phishing.”

Example

microsoft-support-security.com

End Message

“Modern phishing attacks can look highly professional.”

LEVEL 6 — Mobile & Social Media Scams

Purpose

Teach modern phishing outside email.

Difficulty

Hard

Scenarios

- SMS phishing
- WhatsApp scams
- QR code scams
- fake Facebook alerts
- fake Amazon text messages

Skills Learned

- avoid unknown QR codes
- identify fake text links
- verify app notifications

New Mechanic

Phone-style interface.

End Message

“Phishing attacks can happen through texts and apps, not just email.”

Final Goal

Reach:

70% safe decision score

Final Reward

“Certified Phishing Awareness Champion”
