

Individual log item	Your answer
Name	Anu Maya Tamang, Group Leader
Student ID	15605450
GitHub username	Anu Tamang
What I worked on today	I distributed the task for everyone in the group. I together complete the writing part with one of my member. I worked on the welcome screen of the game by generating the images and did my own individual research about the game.
Tool I used	HTML / VS Code
File/prototype part I created or edited	
What I learned	I learned how to use the html properly, how to generate the pictures and especially about how should the welcome screen of the game need to look like.
What I need to do next	I need to work more on research. I need to develop game core together with my team members.
