

Peer Review Item	Peer Group Response
Group reviewing	Power Ranger
Group being reviewed	Inception
Prototype tool used	HTML/CSS/
What part of the prototype was tested?	Welcome screen – instructions are clear when open it.
One strength	Welcome page is attractive and well organized.
One issue or problem	The Instructions are a bit complex for their target audience.
One improvement suggestion	Bold statements should be used in the instructions for better understanding in short.
Was the cyber-safety lesson clear?	NO because the development of the game is in progress.
Was the prototype suitable for the target audience?	No because the instruction page is time consuming to read and complex for old people.
Action the group should take next	Everything is perfect just modify the instruction section and make it simpler.
